W. Alexander & Sons (Fife) Limited (trading as Fife Scottish)

Fleet 1984

Fleet strength down to 282 (158 less than in 1978) - this is the smallest the fleet has been during 60 years of operation
Despite only six years since our last fleetlist only 126 vehicles remain from 1978. Partly due to Government grants encouraging purchase of new buses but also due to the massive cuts in services and depot closures
Many nearly new vehicles have passed on to other operators whilst a requirement for some additional school buses in North East Fife have resulted in some secondhand purchases
Manufacture Leyland accounts for all single deckers in operation
Anstruther, Cupar and Lochgelly Depots have all closed by 1982. Glenrothes will open in 1985

*** At this time all vehicles had a type code and a number (eg FPE194, FRA67) to form the individual fleetnumber**
**** Seating code shows a bus, dual purpose or coach (starts with a B, DP or C) followed by number of seats and then F (all front entranced by now) a 't' at the end means toilet fitted**
***** Double decker seating is shown 'H' followed by the upper deck seating/lower deck seating and then the door code (F for front entranced or D for front and middle door)**

SINGLE DECKERS & COACHES (Total 176) — **1984**
